Experience

Store Team Member

Woolworths | 10/10/2015 - Present

Working as a team member and a manager for a cumulative 10 years, across many in store departments. I was a team leader for approximately 4 years before stepping aside to focus on my tertiary education. This role involved a lot of teamwork and communication, and is primarily a customer service focused position.

Freelance Contractor - Game Developer

INAP (Rio Tinto) | 01/01/2025 - Present

Working with INAP to further develop my project initially developed for a university course. During the class I designed and developed an Unreal Engine game for android devices featuring accelerometer technology. This project has been extended to paid freelance with three other collaborators and myself, it has been published to the android play store under the name Rock Bottom. This role involved working in Unreal Engine using C++, as well as collaborative development for mobile platform, and as stated previously with close contact to an industry partner.

Freelance Contractor - Research Assistant (VR Developer)

Queensland University of Technology | 17/03/2025 - 31/12/2025

Working on two Virtual Reality projects with the University, including Solo Programmer on a Masters Project for increasing interest in construction industry jobs for women, and Programmer on a Department of Environment funded educational STEM experience. The latter of the two projects can be viewed here: <https://research.qut.edu.au/ecoeexplorations/>. This role involved working with Unity Engine and C#, for the meta quest 2 and 3 platforms. The projects involved a lot of collaboration with different stakeholders and followed the Agile method for project management.

Volunteer Marketing - SXSW Sydney

Arkanpixel | 15/10/2023 - 22/10/2023

Volunteer work for a Brisbane game development studio travelling to showcase *Frogreign* at the inaugural SXSW Sydney. This role involved collaboratively running a showcase booth, attending networking events, and media related discussions.

Education

Bachelor of Games and Interactive Environments

Queensland University of Technology | 01/01/2021 - 31/12/2025

I have completed my bachelor degree, of which I have held a 6.4 GPA. I have majored in software technologies, which is the programming pathway, and have minored in mathematics and animation.
